*** Note to Teachers:**

The autobiography assignment is designed to be used multiple times throughout the year as a tool for teaching and assessing the personal narrative. Each “chapter” is meant to build on the previous chapter, focusing on a new feeling and incorporating a range of FCAs, including writing style, conventions, and narrative organization. When combined, these mini-autobiographies form a “Year in Memories” that not only shows evidence of writing growth over time but serves as a fun and meaningful keepsake for students and families.
